**MAKE..... 15 mins**

Laila works in tech at ASOS. In pairs, design an item of smart clothing (clothing that includes tech) to help Laila in her every day life as a software engineer. Create a 1 minute pitch/speech to sell your clothing items to your club. Think about:

- How much will your item cost?
- Where can we buy it from?
- Why should we buy your item?
- How will it help Laila?
- How is your item better than other smart clothing items?

Laila is a software engineer which means she needs to know how to code. Head to [www.codecademy.com](http://www.codecademy.com) create an account and choose a language to learn. Work through as many of the programs as you have time for. After the club you can carry this on at home by logging in with the same details as you signed up with.
