**Snack, Cackle & Pop**..... 2 mins

**Snack:** Pineapple

**Cackle:**

**Pop:** Stemillions playlist on Spotify:

[bit.ly/stemillionsplaylist](http://bit.ly/stemillionsplaylist)

**Meet Them** ..... 5 mins

Bridgette's formula for success is using her love of chemistry to develop groundbreaking products at work and create natural remedies for her family at home.

**Watch:** [bit.ly/069MeetThem](http://bit.ly/069MeetThem)

**Discuss:**

- ★ What do you think of Bridgette's career?
- ★ What is the periodic table?
- ★ How many different elements can you name?
- ★ What is your favourite subject in Chemistry?

### Mains 20 mins - choose ONE only

**MAKE**..... 20 mins

Chemistry puns: create a wall display all about the different elements in the periodic table - there's only one catch, each element has to include a pun. Try to include the following information on your display:

- Is it a metal or nonmetal?
- Which period is it in?
- Which group is it in?

If you need some inspiration, take a look at this week's cackle.

- If you have time, see if you can include some women, like Bridgette, who work with the periodic table regularly.

**EXPLORE**..... 20 mins

Periodic table battleships: get into pairs and make sure each of you has a copy of the periodic table. Mark out 5 ships that are 3 elements long (make sure your partner can't see you doing this). Take it in turns to call out different elements to try and sink each others battleships. Whoever sinks the most of their opponents battleships wins!

- Make it more complicated by making the battleships longer.

### Desserts 5 mins
