Meet Her..... 5 mins

Darlene is the founder of SciStarter, a popular online citizen science community that collaborates with scientists to tackle formal and informal research projects. She is also the founder of ScienceCheerleader, a site that creates mechanisms for public engagement in scientific research and policy discussions. She holds a Masters Degree from the University of Pennsylvania in Philadelphia.

MAKE..... 15 mins

Design a webpage that focuses on one specific area of STEM and could be used on the SciStarter website. Your aim is to focus on local/global issues (e.g. pollution and endangered species) that should be improved and to encourage citizens to help.

EXPLORE..... 15 mins

As Darlene founded ScienceCheerleader, make a cheer encouraging citizens to get involved with scientific data collection. Look up some examples of citizen science for inspiration. Perform your cheer to the rest of the club.
