Meet Her..... 5 mins

Natasha has over 10 years experience in construction and engineering and is now a design manager. As a teenager, Natasha would design and build model homes out of cardboard boxes and has now in her adult years led on a huge part of the Leadenhall building, a 225 metres tall skyscraper in central London. Natasha loves to create things, from cake toppers to home made jewellery.

Discuss:

- ★ What do you think of Natasha's job?
- ★ Do you like to make things? What have you made... have you made jewellery?

Mains 20 mins - choose ONE only

MAKE..... 20 mins

Ingredients: paper (optional scissors)

A design manager oversees and helps with the design process. A big part of this process is making and testing prototypes. Try making a paper aeroplane and test how it flies.

- ★ Fold your paper in half longways
- ★ Unfold it and fold the top two corners in to meet the line you just made
- ★ Turn it over and fold it along your centre fold again
- ★ Where you already folded the corners, fold this again to the centre line on one side
- ★ Fold it in half again
- ★ Repeat this on the other side

Now try adapting the design - make the wings smaller, try starting with a different size paper, try folding it a different way. Which is the best way to make your design?

EXPLORE..... 20 mins

Ingredients: paper and colouring pens/pencils

A design manager has to understand what people want their products to do and use this to inform the design.

You need to design a cake for your parent/guardian. Ask them for 3 specifications of the cake and then draw a design for them!

Eg. a cake with 2 layers, strawberries on it and at least 2 colours of icing

Ask Them..... 2 mins

Got a question? Ask Away! bit.ly/Ask-Away

Digest..... 2 mins
