Mains 20 mins - choose ONE only

MAKE..... 20 mins

You will need: internet access.

Jennie loves to code so for this activity, we will do some coding on scratch. Go to Scratch, you don't need to create an account, click 'Start Creating'. Code 2 sprites to have a conversation about Jennie and her job. You can [find out more about Jennie here](#) or by doing your own research. Alternatively, you can code 2 sprites to have a conversation about cybersecurity and how to stay safe online.

EXPLORE..... 20 mins

You will need: 2 different coloured pens/pencils, paper.

Jennie has to know how to code in her job. For this activity we will look at one type of code, Binary. One of the most common uses for binary nowadays is in computers: binary code is the way that most computers send, receive, and store information. This code uses two symbols, 1's & 0's to represent letters. One colour will represent 1, the other will represent 0. Try and write your name (or nickname) using the binary alphabet. Here is a link to the Binary alphabet to help.

Remember to send us your creations on email at team@stemettes.org or send them to us on Twitter or Instagram, @Stemettes.
