

Meet Guide #4:

Halfway - Exploring Options

It's the halfway point, so it's time to talk about the future. This week, we suggest having a chat together about your mentee's future short-term and mid/long term options and then developing a plan to achieve these goals.

If you have any questions, please get in touch with us in Microsoft Teams.

Exploring Options

Chat about which field(s) of work your mentee may be interested in in getting involved with. Has anything changed since you started mentoring meetings?

Mid & Long Term Options

- Which subjects/careers are you interested in? Why?
- Are there any career paths or subject areas that you have ruled out?
- Any options you're undecided on?
- List out any 'undecided/unsure' subjects (if any)

Short Term Options

- What choices will you make in the next 6 to 12 months?
- What is currently influencing these choices?
- List out the upcoming choices and discuss/research.
- Be in the know before you rule out options!

Share your Wisdom!

- Mentors- any advice for your mentee researching their future options
- What's something you wished you had known when you were in their position?

Meet Guide #4:

Halfway - Exploring Options

Deep Dive - Let's Research!

With your mentee, follow the steps below to research their possible next steps:

Choose two careers, courses or apprenticeships to focus on

Explore different companies or universities that do these well.

What skills do you need to be accepted to these careers/courses?

Explore different pathways which can get you there.

Find different examples of people doing these jobs/courses and look at a day in their life.

Come up with a Plan A, Plan B, Plan C, & Plan D for both options – if something doesn't work out as planned, what will you do instead?

Before you Finish...

- Set your next meet up date and time
- Claim your points for this meetup and a fun selfie screenshot through the link in Teams
- If you're posting on social media, tag us #studenttostemettes
