## Mains 15 mins - choose ONE only

**MAKE..... 15 mins**

In three's, create a geodesic dome. You will need 11 small gummy sweets and 25 cocktail sticks

[\(detailed instructions here\)](#)

- ★ Connect 5 cocktail sticks with 5 sweets to form a pentagon for your base
- ★ Poke 2 more cocktail sticks into each sweet of your base so they are all pointing up
- ★ Attach the cocktail sticks with 5 more sweets to form triangles
- ★ Connect the top points of the triangles you just made with cocktail sticks to form another pentagon
- ★ Poke one cocktail stick into each sweet of the top pentagon
- ★ Connect the 5 sticks with one sweet in the centre

Gently push down on your geodesic dome, how much weight can it support?

**EXPLORE..... 15 mins**

Our roads are getting smarter, they tell us when to slow down, when there is traffic etc. What will roads look like in 50 years time? Get into groups and draw it out. Think about:

- ★ Could we create energy from roads?
- ★ How can we make roads safer?
- ★ What is the car of the future going to look like?
